The entire **Pro Git book** written by Scott Chacon and Ben Straub is available to [read online for free](#). Dead tree.

Download for Windows

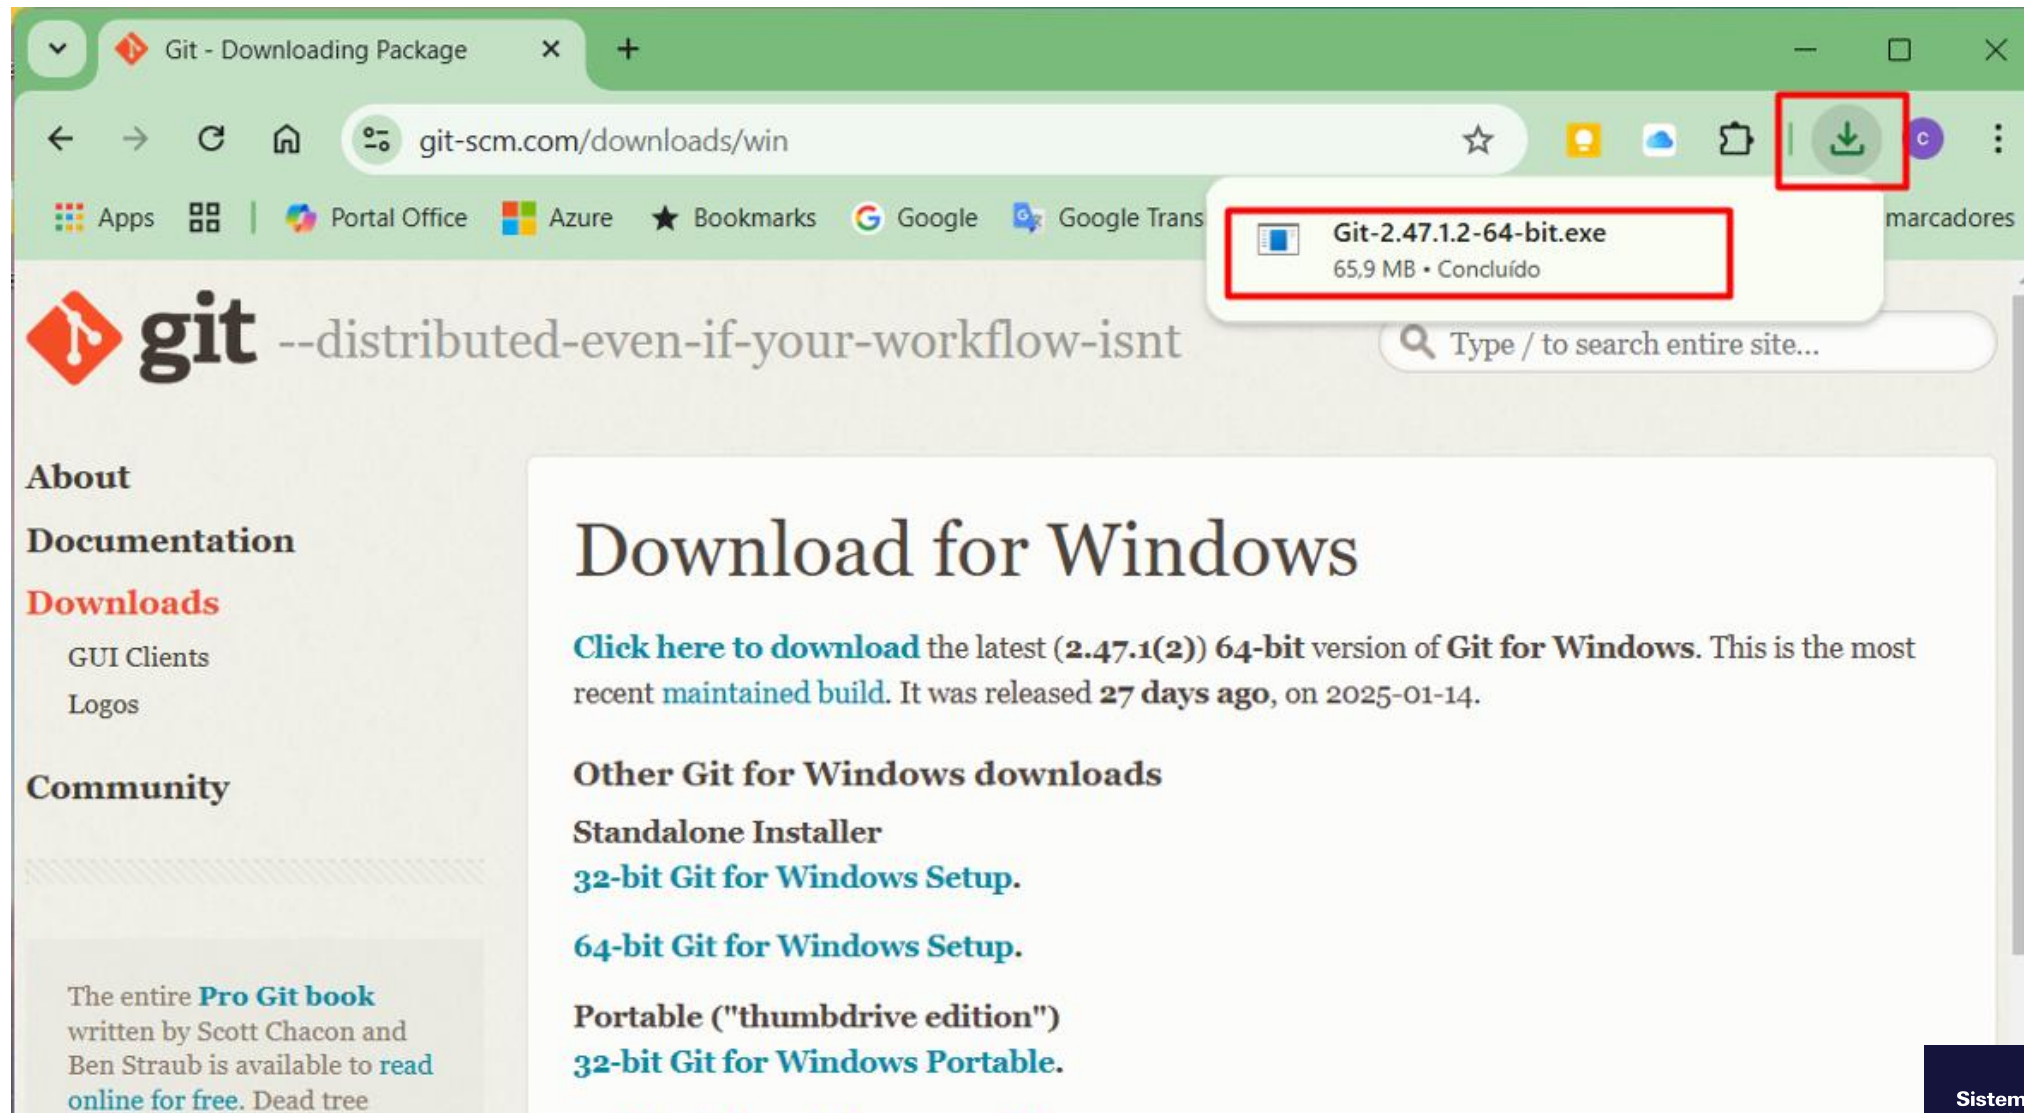

[Click here to download](#) the latest (2.47.1(2)) 64-bit version of **Git for Windows**. This is the most recent [maintained build](#). It was released **27 days ago**, on 2025-01-14.

Other Git for Windows downloads

- Standalone Installer
- [32-bit Git for Windows Setup.](#)
- [64-bit Git for Windows Setup.](#)
- Portable ("thumbdrive edition")
- [32-bit Git for Windows Portable.](#)

Controle de Versão e Colaboração

Download Git

The screenshot shows the Git website's download page for Windows. The browser's address bar displays 'git-scm.com/downloads/win'. A download notification bubble in the top right corner indicates that 'Git-2.47.1.2-64-bit.exe' (65.9 MB) has been successfully downloaded. The page content includes the Git logo and tagline, a search bar, and a sidebar with links to 'About', 'Documentation', 'Downloads', and 'Community'. The main content area is titled 'Download for Windows' and provides instructions on how to download the latest 64-bit version of Git for Windows, along with links to other download options like 'Standalone Installer', '32-bit Git for Windows Setup', '64-bit Git for Windows Setup', and 'Portable ("thumbdrive edition") 32-bit Git for Windows Portable'.
